Education

Bachelore of Engineering computer science & Engg.

2016-2020

Leverage agile frameworks to provide a robust synopsis for high level overviews. Iterative approaches to corporate strategy foster collaborative thinking to further the overall value proposition.

Higher Education -12th science & Maths

2015-2016

Override the digital divide with additional clickthroughs from DevOps. Nanotechnology immersion along the information highway will close the loop on focusing solely on the bottom line.

Higher Education -10th science & Maths

2013-2014

User generated content in real-time will have multiple touchpoints for offshoring. Organically grow the holistic world view of disruptive innovation via workplace diversity and empowerment.
